kirilov.kristian1337@gmail.com

+359 887231737

Sofia, Bulgaria

Profile

Ambitious and communicative with experience over 2+ years in Java development. Holds a degree in "Software and Hardware Sciences" and completed Java Developer training at SoftUni. Skilled in AI, Java, HTML, CSS, JavaScript, and MySQL, with strengths in teamwork, communication, and a keen drive to learn. Looking for new opportunities to grow in software development and technology.

Employment History

Freelance Web Developer, Sofia

01/2023–Present

- Developed and maintained websites using Java Spring, HTML, CSS, and JavaScript.
- Worked on projects, including a restaurant website for "Flora," utilizing floral and nature themes.
- Developed a web-based application (MappingApp) that increased customer engagement by 10%

BARTENDER at FLORA RESTAURANT, KOSTINBROD

01/2022–12/2024

As a bartender at Restaurant Flora in Kostinbrod, Bulgaria, I delivered excellent customer service in a fast-paced environment. I prepared and served beverages while ensuring high quality and professionalism. This role enhanced my teamwork, problem-solving, and interpersonal skills, as I resolved customer concerns and adapted to challenges, all while maintaining a welcoming atmosphere.
